LeetCode: vasanth_025

EDUCATION

B. Tech Information Technology	2022 – 2026
Sri Ramakrishna Engineering College	CGPA: 7.64
Higher Secondary Certificate (HSC) Pachamuthu MHSS Dharmapuri.	2022
	Percentage: 86.66%
Secondary School Leaving Certificate (SSLC) Vishwa Bharathi MHSS Morappur.	2020
	Percentage: 98.6%

PROJECT

IntrusionDetection System for Home Security

- Designed an IoT-based system using a microwave motion sensor for real-time intrusion detection.
- Captured video upon intrusion and uploaded it to Firebase Cloud Storage.
- Built a web app using HTML/CSS/JavaScript for remote monitoring and control.
- Stored and synced motion logs and video URLs using Firebase Realtime Database.

Personal Healthcare Record with Medication Tracker

- Designed a cloud-based healthcare system with AI-driven medication assistant.
- Integrated NLP-based chatbot for monitoring medicine intake and reminders.
- Enabled doctors to assign treatments and generate reports using patient_ID.
- Used Firestore to store medical history and prescriptions.

Crop yield Optimization

- Developed an AI-driven agriculture dashboard using IoT soil sensors + ML models.
- Collected pH, N, P, K, and historical data to train predictive models for crop recommendation.
- Implemented ML-based alerts for fertilizer and water management to optimize yield.
- Provided decision support system for multiple fields with personalized dashboards.

Face recognition attendance system - TStance

- Built an AI-powered attendance system using OpenCV and deep learning-based face recognition.
- Trained models on facial datasets, achieving 95% accuracy after preprocessing.
- Integrated auto-training pipeline for new employees.
- Logged attendance with MySQL + REST API backend.

SKILLS

Programming: C, Python, Java.

AI/ML Tools & Libraries: OpenCV, TensorFlow/Keras, Scikit-learn, PyTorch.

Databases: MySQL, Firebase, MongoDB.

Soft Skills: Problem Solving, Team Collaboration, Active Listening.

Other Tools: GitHub, VSCode, Figma, Canva

CERTIFICATES

- Mastering Problem Solving with C, e-box.
- 3 days online workshop in Quantum computing and data analytics conducted by VIT on 7th-9th February 2024
